

Alltec Machine Guide and Comparison Chart

Aqua's

The Aqua range of machines come in 3 sizes, the Aqua 30, Aqua 40 and Aqua 50.

All three of the mid size ALLTEC AQUA range of machines have three things in common; their good looks, their manoeuvrability and above all else, their professional cleaning power. As these machines are made here in the UK we can give you the unique opportunity to have a machine built to a specification to suit your needs.

FREE Basic Training With All Portable Machines

All new machine orders come with basic equipment training, spend two hours with an expert who will show you how to fully operate your new equipment. Why not book further training when you order your new machine? These courses are designed to be ideal for anyone that is directly involved in cleaning. From business start-ups, company employees to the owner operator professional cleaners.

Hands on Carpet Care

This intensive one-day school has been designed to teach all levels of technicians the best way to clean and protect carpets correctly.

Hands on Upholstery Care

A one-day school planned to help all levels of technicians overcome the many problems that can occur in cleaning and protecting modern upholstery fabrics.

Advanced Spot & Stain Removal

A special one-day course to be a hands-on, in-depth learning experience on spot and stain removal.

Elite

The ALLTEC ELITE is a powerful and robust carpet cleaning machine assembled in the UK.

The ELITE comes with our special High-AirFlow vacuum system, with optional 100 or 500psi and hi-heat in-line heater. It delivers superior cleaning results and faster drying times than most plastic made machines.

Evolution

The ALLTEC EVOLUTION new in-line heater gives you instant heat when you need it and much quicker drying times. The EVOLUTION still boasts the large solution and waste tanks saving you time filling and emptying, and with its high pressure 600psi pump you can also use the Gekko range of hard floor tools with the EVOLUTION.

Info about packages

Contact us for complete packages including cleaning solutions and accessories, starting with our basic package and Express machine from as little as £2,100.

All our packages can be tailored to suit your business. Call us on 01763 208222 to be sent our customisable package quotation.

Elite 1200

The ELITE 1200 gives you 0-1200psi cleaning pressure so you can have high-pressure and water delivery allowing you use professional tools like the SX-15 on a portable for hard floor cleaning and restoration.

You can clean with truck-mount-like performance, the auto-fill and auto-empty enables you to clean large areas of hard floor or carpets without having to stop to re-fill and empty every few minutes, and at a fraction of the cost! The roto-moulded body is tough and long lasting and will withstand everyday commercial use, yet is good looking to use in any high-end home.

PRICES:

Elite 1200	£3,647.00
------------	-----------

OPTIONAL UPGRADES:

None

Advance 1200

The ALLTEC ADVANCE 1200 is a great looking machine with outstanding performance to blast the dirtiest tiled or hard floors and still clean carpets! You can clean with truck mount like performance at a fraction of the cost! The twin vacuum

Advance 1200 has optional upgrades of Autofill and Autoempty to save you time while cleaning hard floors.

The ADVANCE 1200 gives you control of 0-1200psi – so now you can have ‘high-pressure’ and water delivery to use professional tools like the SX-15 on a portable. You can clean with ‘truck-mount-like’ performance at a fraction of the cost!

PRICES:

Advance 1200	£3,247.00
--------------	-----------

OPTIONAL UPGRADES:

Triple Vacuum Upgrade	£300.00
Auto Empty Waste System	£300.00
Auto-Fill System (inc chemical feed)	£299.99
Auto-Fill System Only	£99.99
Different Colour Body	£100.00

Servicing info

Regular servicing of your machine will help ensure that costly breakdowns are reduced. We can service any make, any model of Portable or Truck Mounted machine.

If you do have a breakdown, call our Workshop on 01763 208222, we will try and diagnose the problem and find a way to get you back up and running as quickly as possible. Sometimes, however the problem cannot be easily solved over the phone and will need to be looked at in our Workshop by a technician. We stock most spare parts for Portable HWE machines and generally can have you back up and running in a couple of hours!

Collection and delivery is available for Portable machines by courier, charges will depend on the model.

For out-of-hours emergencies call 01763 208222, we may not always be able to answer your call straight away but leave a message and we will call you back as soon as possible.

Leasing Equipment

Here is an example for Leasing an Advanced 600 Twin Vacuum machine. Figures are based on a non-limited company trading for 3+ years.

Fixed Term Lease	2 years	3 years	4 years	5 years
Initial payment	£448.89	£332.76	£276.48	£243.84
Monthly rental	£149.63	£110.92	£92.16	£81.28
Weekly equivalent	£34.53	£25.60	£21.27	£18.76

Leasing figures shown are purely an example and will depend on the individuals circumstances. For a more detailed quotation please contact Focus Leasing direct on 01794 525930. Figures are also subject to VAT at the standard amount. For full details please contact Focus Leasing or your preferred company.

Leasing v Cash

By paying acsh, the amount you can deduct from your bill is limited to capital allowances on the purchase. Also don't forget the interest (or other return on capital employment - "ROCE") that is lost.

Cash Price	£2747.00
Less tax relief	£246.48
Plus lost ROCE	£909.26
Net cost of paying cash	£3409.78

By leasing you will get tax relief on every payment

Total Rentals	£3993.12
Less tax relief	£798.63
Net cost of lease option	£3195.07

...and you are improving cashflow, the lifeblood of your business.

Example based on	36 month lease
Highest rate of	20%
Capital allowance - Yr 1	18%
ROCE per annum of	10%

Some other benefits

Have what you need today with no cash outlay

Independent finance cannot be withdrawn and keeps existing credit lines open

Use bank funding for working capital to maintain a healthy business

Fixed payments for the term means easy budgeting

Let the equipment pay for itself with immediate return on investment - you wouldn't pay your staff 3 years in advance!

Have what you need - not what your budget limits you to

Leasing may overcome budgetary restrictions which prevent which prevent capital outlay
